Appomattox County Library

by Verna Conner

If you like gardening the following books, which are in our library, may help with your spring plantings: 1. America's Gardens - Better Homes & Gardens, 2. The Self-pronouncing Dictionary of Plant Names - Ralph Bailey, 3. The Guide to Garden Shrubs and Trees - Norman Taylor, 4. Easy Gardening with Drought Resistant Plants -- Arno Nehring, 5. The Complete Garden - Albert Taylor, 6. Planning Your Garden - W. S. Rogers, 7. Gardening for the Small Place - Leonard Barron, 8. The New York Times Garden Book. These are just a few of the many books on this subject so don't mind going in and browsing until you find what you want and need. Many people think that in the winter the Library is filled with students and this used to be the case but now that the schools all have such good media centers, the County Library is a place where one can go and read, study or just think without any distractions.

Of the recent new arrivals in the fiction department, I have read The Gambling Man by Catherine Cookson and found it very entertaining. Also Smouldering Fires by Anya Seton which reminds one of her last book called Green Darkness. It deals with the subconscious mind of a young girl whose dream life corresponds to that of one who lived two hundred years before. I have also read Angels by Billy Graham and as usual I read it too fast. It should be real a little at a time and digested. One should look up the Biblicla references as they come and I would recommend it to Sunday School teachers as well as anyone who believes in guardian angels which I do. Dr. Graham says "We are not alone in this world; angels are real; they are sent by God to portect and help people; their powers are beyond human imagination; their presence can reassure and comfort us in times of crisis; angels will execute God's coming final judgment on the world; the Bible mentions angels nearly 300 times but until recently many doubted their existance".

Dr. Graham says when he undertook the research necessary for the writing of this book he found himself involved in one of the most thrilling projects of his life. The result was Angels - God's Secret Agents.

Another new book called The Time of the Dragon by Dorothy Eden could be of interest to students of Chinese History, as it spans seventy-five years of a great trading dynasty. It covers the time of the Boxer Rebellion and the reign of the great Empress Dowager, Tz'u-hsi who hated the white "foreign devils". Personally, I did not care much for the book but to Dorothy Eden fans it might be interesting.
